Faridabad, Haryana, India

SUMMARY

Full-Stack Developer specializing in AI-integrated MERN applications with professional frontend and backend internship experience. Skilled in JWT/OAuth auth, real-time WebSockets, and MongoDB schema design with 30+ production REST endpoints shipped.

EDUCATION

Lingaya's Vidyapeeth
Bachelor of Technology in Computer Science

Faridabad, Haryana
Sep 2024 – Sep 2028

EXPERIENCE

Vellaration Technologies Pvt. Ltd.
Frontend Developer Intern

Jul 2026 – Present
Hybrid

- Engineered modular, responsive React.js interfaces from high-fidelity Figma designs, delivering pixel-perfect layouts using component-driven architecture.
- Collaborated with backend teams to integrate RESTful API endpoints and optimized client-side state management, ensuring seamless cross-browser performance.

Infosys Springboard
Web Development Intern

Oct 2025 – Dec 2025
Remote

- Led React.js frontend development, converting Figma wireframes into modular components; reduced layout inconsistencies by 40% across all devices.
- Integrated RESTful APIs for event and user data; implemented JWT-based authentication with role-based access control and secure protected routes.

PROJECTS

HireMindAI | *React.js, Node.js, Express.js, MongoDB, Web Speech API, Tailwind CSS*

[Live](#) | [GitHub](#)

- Built a full-stack AI-powered interview platform with role-based HR and Technical interview generation, voice interaction, and real-time AI feedback on candidate responses.
- Engineered a resume analysis pipeline that parses uploaded PDFs and auto-generates personalized questions tailored to the candidate's role and experience level.
- Implemented Google OAuth 2.0+ JWT authentication, protected routes, a credit-based usage system, and detailed post-interview analytics reports.

TableTap – Multi-Restaurant SaaS | *React.js, Redux Toolkit, Node.js, Express.js, MongoDB, Cloudinary*

[Live](#) | [GitHub](#)

- Built a production-style multi-restaurant SaaS with role-based auth (customer/owner/admin) and real-time table availability by date and time slot.
- Designed a pending-to-confirmed booking workflow with 30-minute seat holds, automatic seat re-validation, and auto-expiry via background cron jobs to prevent double-booking.

StreamHub – Video Sharing Platform | *React.js, Redux Toolkit, Express 5, MongoDB, Socket.IO, Cloudinary*

[Live](#) | [GitHub](#)

- Built a full-stack YouTube-style platform supporting video upload/streaming, likes, comments, playlists, subscriptions, and real-time Socket.IO notifications.
- Implemented JWT refresh token rotation via httpOnly cookies and paginated MongoDB aggregation queries for feeds and watch history.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Java, C++, SQL, HTML5, CSS3

Frontend: React.js, Redux Toolkit, TypeScript, Tailwind CSS, GSAP, Framer Motion, Responsive Web Design, Component-Based Architecture

Backend: Node.js, Express.js, REST API Design, API Integration, JWT Authentication, OAuth 2.0, Socket.IO, Middleware, MVC Architecture

Databases: MongoDB, Mongoose, MySQL, Schema Design, Indexing

Tools & Cloud: Git, GitHub, Git Workflow, Docker, Postman, Figma, Vite, Render, VS Code, Axios

Core Concepts: Data Structures & Algorithms, Authentication & Authorization, Performance Optimization, Debugging, Scalable API Design, Agile Development

ACHIEVEMENTS & CERTIFICATIONS

- Google Student Ambassador**, Lingaya's Vidyapeeth (Dec 2025)
- Designed, built, and deployed **30+ RESTful API endpoints** across multiple production-grade MERN applications.
- Solved **50+ Data Structures & Algorithms problems** on LeetCode, focusing on core algorithmic concepts.
- Infosys Springboard Full Stack Web Development**, Completion Certificate (Dec 2025)
